

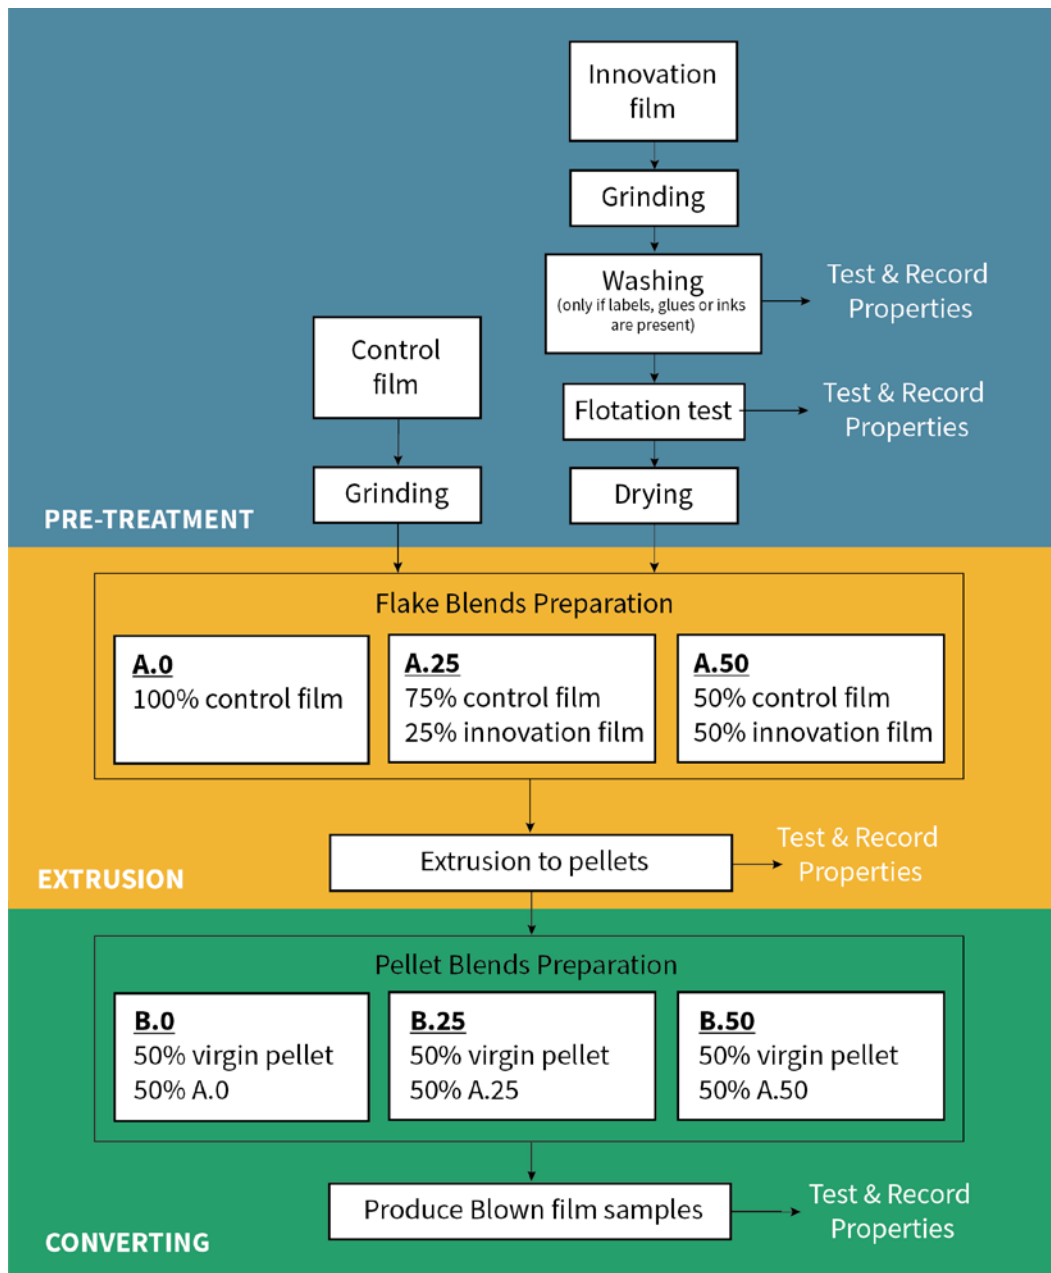

Figure1: Methodology Diagram

#### 4.1 CONTROL SELECTION

- **Option 1:** If there is a PE film on the market, similar to the Innovation and is known to be recyclable, it can be selected as the control for this Protocol, with/upon the approval of the RecyClass.
- **Option 2:** If there is a PE film article/virgin known to be recyclable, consisting of the same base PE virgin materials as the Innovation, except/apart from the specific ingredient/feature being evaluated, it can be selected as the control for this Protocol, with the approval of the RecyClass.
